

Community Support Coordinator

Create and maintain a vision of the world in which the person with a disability is surrounded by people who are informed, supportive, inclusive, competent, optimistic, flexible and creative, who communicate effectively, and who are enthusiastic and effective problem solvers.

- lead and coordinate services for individuals with brain injury, their families and treating professionals
- gather relevant information relating to acute services and outcomes, rehabilitation services and outcomes and discharge planning from all treating professionals
- provide consistent information to client and family regarding service components, course of treatments and potential outcomes
- liaise with involved professionals
- advocate with client for access to services and entitlements
- maintain active caseload of approximately 40 clients
- provide group development and facilitation
- assist in the development and evaluation of protocols used in Case Management Services
